

Nisha More

PYTHON DEVELOPER | FLASK | SQL | MCA GRADUATE

Pune, MH | 8999612108 | nisha01.more@gmail.com | [LinkedIn](#)

Professional Summary

Python Developer with practical experience building backend and full-stack web applications using Python and Flask. Strong understanding of RESTful API development, relational database design, CRUD operations, authentication, input validation, and error handling. Experienced in deploying applications on Heroku and writing clean, modular, and maintainable backend code. Actively seeking an entry-level Python backend role.

Education

Master of Computer Applications (MCA)
Manipal University Jaipur | 2024

Bachelor of Science (B.Sc.) in Computer Science
Dadasaheb Digambar Shankar Patil ACS College | 2021

Projects

Training & Placement Management System

- Designed and developed a Flask-based backend application to manage student placement data.
- Implemented RESTful CRUD APIs (GET, POST, PUT, DELETE) with proper input validation and error handling.
- Designed a PostgreSQL relational database schema to store student details, placement records, and company information.
- Implemented role-based access control for admins and users.
- Deployed the application on Heroku for live access and testing.

Tech Stack: Python, Flask, PostgreSQL, REST APIs, HTML, CSS, JavaScript, Heroku

E-commerce Website

- Developed a frontend e-commerce interface using ReactJS, HTML, CSS, and Bootstrap.
- Built reusable React components for product listings and layout structure.
- Implemented basic client-side interactivity using React state and props.
- Designed responsive UI using Bootstrap for cross-device compatibility.

Tech Stack: ReactJS, HTML5, CSS3, Bootstrap, JavaScript

Technical Skills

Programming & Backend: Python, Flask, REST APIs

Frontend: HTML5, CSS3, JavaScript, Bootstrap, ReactJS

Databases: PostgreSQL, MySQL

Tools & Concepts: DOM Manipulation, Responsive Design, Git (basic), Basic Deployment (Heroku)
